Summary

Python Backend Developer with 4+ years of experience, specializing in innovative and user-centric web applications. Proficient in Django Rest Framework, Flask, FastAPI, SQLAlchemy, and REST API development, I excel in solving complex problems with a strategic approach. My journey has honed my ability to work independently and collaboratively,. I am eager to take on a challenging role as a Senior Python Django Developer, where I can further refine my skills and contribute to cutting-edge projects that drive business success, all while staying committed to continuous learning and best practices in software development.
